The Celebrated Indian Doctor. JOS. SAUKABASIN,

Has availed himself of the medical knowledge of the tribes who composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable [illegible] which are the growth and natural [illegible] the disease of the climate [illegible] He has in his possession a great number of certificates testifying to the [illegible] beneficial and often sudden effects on [illegible] diseases. From a very large number of certificates [illegible]

Brewer, July 8, 1848.

To all whom it may concern.—This will certify that I had a very severe attack of the Rheumatism in my hip. I tried various means to cure it, but it grew worse and worse for [illegible] three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due to him and to the community to recommend him as a safe and skillful physician.

BENJAMIN SNOW.

This will certify that I was afflicted for over thirty years with a Scrofulous humor [illegible] and I applied to four [illegible] physicians, and got no relief until I [illegible] with JOSEPH SAUKABASIN, and he gave me one bottle of [illegible] and cured me so it has troubled me none since, [illegible] perfectly sound. My daughter Hannah was afflicted with a Cough and Spitting of Blood, and by taking his medicine was cured. SYLVANUS COOMBS.

Holden, August 15, 1842.

Holden, Dec. 3, 1852.

Dr. Jos. Saukabasin—Dear Sir: I feel it a duty to give you my best thanks for curing my wife of a disease of long standing—a dropsical complaint—and I believe if it had not been for your medicine she now would have been in her grave. ANDREW L. PINKHAM.

December 7th, 1852.—I feel perfectly satisfied that Dr. Joseph Saukabasin has cured my boy of a fever sore, when other doctors gave him up. NATHAN DYER.

He has located himself in Brewer, above the Toll [illegible] where he may be consulted by mail or otherwise, and will be frequently in Bangor.

FORM FOR A BID

Where no change from advertisement is contemplated by the bidder.

I (or we, as the case may be) [here write the name or names in full] of [here state the residence or residences] hereby propose to carry the mail on route No. [illegible] from [illegible] as often as the Postmaster General's advertisement for proposals on the same, dated December 15, 1852, requires, in the time stated in the schedules contained in such advertisement, and by the following mode of conveyance, to wit: [Here state how it is to be conveyed,] for the annual sum of [here write out the sum in words at full length.]

Dated [Signed.]

Form of a Guaranty.

The undersigned undertake that, if the foregoing bid for carrying the mail on route No. [illegible] be accepted by the Postmaster General, the bidder shall, prior to the 1st day of July next, enter into the required obligation to perform the service proposed, with good and sufficient sureties.

Dated [Signed by two guarantors.]

Form of Certificate.

The undersigned, (postmaster, judge, or clerk of a court of record, as the case may be,) certifies that he is well acquainted with the above guarantors and their property, and that they are men of property and able to make good their guaranty.

Dated [Signed.]

INSTRUCTIONS,

Embracing conditions to be incorporated in the contracts to the extent the Department may deem proper.

1 Seven minutes are allowed to each intermediate office, when not otherwise specified, for assorting the mails, but on railroad and steamboat routes there is to be no more delay than is sufficient for an exchange of the mail bags.

2 On routes where the mode of conveyance admits of it, the special agents of the Department, also post office blanks, mail bags, locks and keys are to be conveyed [illegible]

[illegible]

19 Under the act of March 3, 1845, the routes are to be let to the lowest bidder tendering sufficient guarantees, without other reference to the mode of transportation than may be necessary, for the due celerity, certainty, and security of such transportation. When the lowest bid proposes a mode of conveyance inadequate to the due celerity, certainty, and security of the mails, it will not be accepted.

20. When the bid does not specify a mode of conveyance, also when it proposes to carry according to the advertisement, but without such specification, it will be considered as a proposal for horseback service.

21. Since the passage of the act of March 3d, 1845, a new description of bid has been received. It does not specify a mode of conveyance, but engages to take the entire mail each trip with celerity, certainty, and security, using the terms of the law. These bids are styled from the manner in which they are designated on the books of the Department, "star bids." The experience of the Department enables it to lay down the following rules, viz:

When the mail on the route is of such size as to require two-horse coach conveyance, a star bid, if the lowest, will always be preferred to the specific bid.

When the quantity [illegible] size and weight as to render it necessary to [illegible] to provide two-horse coach conveyance, the specific bid, though the highest, [illegible] subject to be entirely sufficient for the route, will be preferred to the star bid, in case the difference is not [illegible] with the policy of the law [illegible] 1845 which looks to a reduction in the cost of [illegible] portion. Exceptions, however, may be allowed where the [illegible] the owner of the stock now used on the route, in the performance of coach service.

On routes of the highest class, where four-horse coach or steamboat transportation is required by the size and importance of the mails, [illegible] specific bids adjudged sufficient for the route, the preference [illegible] specific bid will be, if necessary, carried to a greater extent of difference than on the inferior coach routes.

22. A modification of a bid, in any of its essential terms, is tantamount to a new bid, and cannot be received, so as to interfere with regular competition, after the last hour set for receiving bids.

23 Postmasters are to be careful not to certify the sufficiency of guarantors or sureties without knowing that they are persons of sufficient [illegible] and all [illegible], guarantors, and sureties [illegible] notified [illegible] in a future contract [illegible] for the contracts for the service [illegible] proposed [illegible] accepted bids the legal liabilities will be enforced against them.

24 The contracts will be substantially in the forms heretofore used by this Department, except in the respects particularly mentioned in these instructions, and [illegible] railroad and steamboat routes the contractor will be required to deliver the mails into the post offices at the ends of the routes and into all the intermediate offices [illegible] not more than eighty rods from [illegible]

25 Present contractors and persons known to the Department must, equally with others, procure guarantors and certificates of their sufficiency [illegible] the forms above prescribed. The certificates of sufficiency must be signed by a postmaster, or a judge or clerk of a court of record.

S. D. HUBBARD, *Postmaster General.*
POST OFFICE DEPARTMENT, *December 15, 1852.*

COMMISSIONERS' OFFICE,
Bangor, Maine,
Nov. 16th, 1852.

IN conformity with instructions from the Secretary of the Treasury proposals will be received at this office for the construction of the new Custom House at Bangor according to plans and specifications prepared by A. B. Young, Esq., Supervising Architect, until twelve o'clock on the 17th day of January, 1853. Said proposals to contain offers for the entire work and also separately for each part, the Department reserving the right to contract either way, as it may seem desirable.—The Department also reserve the right to accept the bid or bids which under all the circumstances shall appear most favorable to the interests of the Government, or of not contracting at all in case the proposals, together with the incidental expenses attending the construction of the building shall exceed the appropriations at its disposal. Seventy-five per cent of the amount of work done and materials furnished, according to the contract prices—said amount to be ascertained by the estimate of the Commissioners—will be paid every thirty days, the twenty-five per cent to be retained until the completion of the building and its acceptance by the Government. Every proposal must be accompanied by a written guaranty, signed by two responsible persons, to the effect that they undertake that the party or parties making it will, if his or their offer be accepted, enter into a contract and bond with sufficient sureties in the sum of $15,000 for the faithful execution of the work, and no offer will be considered unless accompanied by such guaranty.

Plans and specifications of the building can be seen at the office of the Commissioners, and also blank forms for the bids.

The proposals will be opened by the Commissioners at twelve o'clock on the day succeeding the expiration of the time for receiving them, in presence of the bidders, if they or any of them shall be present.

THURSDAY, JAN. 13, 1853.

Affairs at Augusta.

The organization and the filling up of the Senate of Maine, making it strongly whig, involves how a mass of political probabilities as to the further organization of the State government in the choice of Governor and Council.—These matters are very soon to transpire, and the prospect now is, we think, that Hon. Wm. G. Crosby, the whig candidate for Governor, will be elected, as, under the circumstances, we think he should be, to the office of the Chief Magistracy of Maine, and that the State will be fully organized by the choice and appointment of Whig Officers, including, probably, a United States Senator.

This result, or the approaches to it, so far, have been brought about by the determined hostility of the two sections of the democratic party to each other, and in the determination of each party to succeed or to cause the utter defeat of the opposite section. The sacrificing of Mr. Sewall was one more in this contest as showing the extent to which it would be carried unless some new element of cohesion should be brought in. This is now hardly to be expected, if it should be found the only course left will be for the House to send up to the Senate the names of Hubbard and Chandler, and leave the election of United States Senator until another session.

We do not, however, anticipate anything of this sort, but that for the purpose of perfecting the mutual revenges the State will be offered to the whigs, and if so there can be no good reason why they should not accept it, and administer the government on right principles.

Lectures on Farming.

While the people of cities and large towns in the country, spend a portion of their winter evenings in listening to public lectures upon various subjects, which afford them instruction and entertainment, it has seemed to us a marvel that in farming communities, which might be so much benefitted, every way, by lectures upon farming, that nothing of the kind is attempted. There is no profession, no class of men who could be more benefitted by lectures upon matters of science, practice and taste regarding their own pursuit, than farmers, and yet no class so much neglect all such benefits. The isolation of farmers, the very thing that requires to be broken in upon by social interchanges in public assemblies, is the very matter which stands in the way of its cure.

The simple facts in rural matters which are weekly and monthly given to the public through the press, are sufficient of themselves to furnish a good lecture once a month at least; while the suggestions in the use and adaptation of these facts would furnish materials for many more.

If some means could be found for securing the delivery of lectures in the farming towns and get the people interested in them, there would be no difficulty afterward in having them sustained. What farming community that would not pay the necessary expenses of a lecturer who would unfold the recently discovered facts regarding specific manures and the mode of their preparation and use. What a glowing train of thought would be experienced by the young and ambitious farmer, on learning the fact, and the reason of the fact, that a few bags of prepared dressing, will secure an abundant crop of turnips? What satisfaction, in knowing just what specific manures are required for apple and what for pear trees, what for corn and what for other crops, and the reason why such manures produce such effects. Is it not something to know the remedy for the loss of eighty or ninety per cent of manure as at present managed on ninety-nine farms in a hundred? Yet this may be known and ought to be known.

Why should every individual farmer be obliged to carry on his cultivation as independent experiments, when he may learn ten times as much by seeking a higher source of knowledge?

We know of no better or cheaper way of placing the whole matter fairly before the mind of those whose welfare is most deeply concerned, than by awakening an interest in agricultural lectures.

If farmers will take this subject into consideration, they will see much in it worth their attention; and by adopting the plan, they would raise the young farmers of our land under its influence all thought and action, for the young farmer would learn that the natural world has treasures even beyond his imagination, rich beyond his conception,—beauties that he never dreamed of, wonders that have never been explored, system and order and perfection the most lovely and sublime, all his own, scattering their treasures plenteous as dew-drops in his path, while he is laboring to cause the earth to give seed to the sower for future harvests, and bread for the eater when he fainteth.

Crystal Palace—World's Fair.

The Crystal Palace, now in course of construction at New York, does not attract the attention it deserves. It is a splendid work of art and has been undertaken as a proper place for an exhibition of the works of Art of the world, after the manner of the exhibition of the World's Fair last year, near London, and will be opened in May next. Yet our Artizans and Mechanics do not seem to take much interest in the matter. If they intend to exhibit any articles there, they should, without loss of time, secure the space in the Palace required for the exhibition of their articles.

☞ We misstated yesterday the amount subscribed by Mr. Rice of the American House, Boston, to the stock of the Penobscot and Kennebeck railroad. He has subscribed two thousand dollars instead of one thousand as we had it. If he was a good fellow, and to be well remembered on account of one thousand, he should be doubly so for the two thousand.

☞ The gas lights made their first display in this city yesterday, and in the course of two or three days they will shine out with a brilliancy equal to that of any city. It will be a great convenience to our people, and add a new attraction to our city.

MEMOIR OF REV. JOTHAM SEWALL, OF CHESTERVILLE, MAINE. By his son, Rev. Jotham Sewall. Boston: Tappan & Whittemore, 1853.

This work is one which will be read by the Christian public of Maine, with deep interest. "Father Sewall," as all delighted to call the subject of this memoir, was known in all parts of the State, as a heralsman of the church, and yet interested in everything that related to the temporal and spiritual welfare of the people. He was a man of large love, and whose religious views and feelings entered into his every thought and word and work. No man ever identified himself more with the great interests of the people of a whole State, than did Father Sewall, and he did this, not from self-seeking, but in the earnest, straightforward prosecution of the work of his Lord and Master.

Those who love to cherish the memory of such a man, will find in this volume a record of his loves and labors while on earth, a record which they will gladly read and to which they will often refer.

Mr. E. F. Duren has this work for sale and is interested in a portion of the handsome edition now offered to the public.

☞ Mr. B. F. Cutter of Pelham N. H., informs the editor of the New England Farmer, that he has cultivated the wild gooseberry for several years, and find that there are a great many varieties of them; some of which have thorns and others do not, and some have fine thorns and very thick, others have large, stout, sharp ones.

Some are good growers and bearers, while others are neither. He has two varieties that he thinks may be very valuable, one of which he found in Pelham, the bushes grow large and bear heavily, and almost entirely thornless.—the other, he found on the farm occupied by Mr. Fabyan, at the White Mountains. The fruit is large and sweet; the bushes have large thorns, bear abundantly, and are great growers.

☞ A sum, not less than $50,000, is to be raised for building churches in the West, by various congregational bodies through the country. The New York Express says that on Sunday of last week the collection in Dr. Cheever's church amounted to $1500, and in the Tabernacle to more than $1000. The collection for the same purpose, last Sabbath, in Mr. Beecher's church, Brooklyn, amounted to $4000, and in the Pilgrim church to $1800. Messrs. Bowen and McNamee have, it is said, offered to subscribe $10,000, should $50,000 be realized.

☞ The Levee at the City Hall on Tuesday evening, for the benefit of the Female Orphan Asylum, proved a benefit to all who attended, for it was a very attractive affair and afforded much entertainment. The music was excellent and the Tableaux were most beautifully and skillfully executed. The attendance of the people was large, and all seemed cheerful, easy and agreeable. We have not learned the amount of means which is secured to the little treasury of the Asylum.

☞ Mr. J. D. Manlove gives the St. Louis Intelligencer a description of a mountain of marble, which he says exists in the Great Salt Lake Valley. He says the marble is of almost every color and shade, in slabs of very large area, and from an inch in thickness to blocks of an immense size. Mr. Manlove judges the marble to be of the best quality, and that it is inexhaustible.

☞ The Franklin, Tennessee, Review, contradicting a report that Bishop Soule is about to visit Liberia, says that he will depart from his home in Nashville, in February next, for California, where he goes to attend to the organization of new Churches, and the general interest of that branch of the Church to which he belongs.

☞ Advertising, says the Albany, (N. Y.,) Dutchman, is to business, what manure is to land, and bread and butter to the growing school urchin—rolling the stone of Sysiphus up the Hill of commerce as easily as a soap-bubble ascends in the air.

☞ A steam boiler, 30 feet long, afloat, was run foul of in Chesapeake bay, three leagues from New Point, recently by the schooner Chase & Edward, from Baltimore for Fall River, which landed it at Norfolk, on the 2d inst.

☞ Those who wish their cows to give large messes of milk in the winter season, should give them warm drink. The extra trouble will be more than repaid by the increased quantity of milk.

☞ The ultra dandies of New York are adopting the mouse tail fashion for moustaches. By means of gum or soap the moustaches are made to stand out on either side of the face like the horns of a catfish.

We give our hearty thanks to Hon. Hannibal Hamlin, and Hon. J. W. Bradbury, U. S. Senators from Maine, and also to Hon. Israel Washburn, Jr., for public documents received from them.

☞ The Senate of Maine has been filled by the election of two Whigs and two Democrats from Waldo. This gives the whigs eighteen of the thirty-one.

LEGISLATURE OF MAINE.

AUGUSTA, Jan. 10.

Senate—Mr. Blake moved that the clergymen of Augusta and Hallowell be invited to officiate as chaplains of the Senate, alternately.

Mr. Talbot objected including Hallowell, and made some remarks in support of that view.

Mr. Steward remarked that the House had invited the clergymen of both towns.

The order then Passed.

Mr. Clark of Lincoln, from the select committee on Senatorial votes, made a report (agreeably to instructions) on the case of John J. Holman, accompanied by a resolve, declaring that gentleman elected a Senator from the 13th Senatorial District. The report was accepted, and the resolution adopted, and Mr. Holman was qualified and took his seat. Adj.

House—In the House the contested election case of Robert Potter was reported upon, and after discussion the report recommitted.

There are but two contested seats in the House.

"Why do you use so much [illegible]" said an English[illegible] to an American the other evening. [illegible]

John M. Clayton and the Bulwer Treaty.

WASHINGTON, Friday, Jan. 7, 1853.

The following is the reply of ex-Secretary Clayton to the attacks made upon him in the U. S. Senate on Thursday, the 6th inst.:

I was very much astonished to-day on reading the attack made on myself in the Senate yesterday. I have a letter from Mr. King, Chairman of the Committee on Foreign Relations, written the day of the exchange of 1850, stating in the very words of my letter to Sir H. Bulwer, which the Senate perfectly understood, that the treaty did not include British Honduras. My letters show my intention throughout the negotiation, to leave the question as the treaty leaves it, not denying nor affirming the British title to Honduras.

The British title to Central American States was recognized by President Polk in sending a consul, Christopher Hempstead, who remained in British Honduras under the protection of the British flag, and by virtue of an exequatur obtained by Secretary Buchanan from the British Government, nearly three years, till I recalled him to prevent the possibility of any charge against President Taylor's Administration of having recognized English authority in British Honduras.

[Signed.] JOHN M. CLAYTON.

Wilmington, Del. Jan. 7, 1853.

Mr. Clayton to Mr. King.

JULY 4, 1850.

DEAR SIR; I am this morning writing to Sir H. L. Bulwer, and while about to decline altering the Treaty at the time of exchanging ratifications, I wish to leave no room for a charge of duplicity against our Government, such as that we now pretend, that Central America in the Treaty includes British Honduras. I shall therefore say to him in effect that such construction, was not in the contemplation of the negotiators or the Senate at the time of confirmation. May I have your permission to add that the true understanding was explained by you as chairman of Foreign Relations to the Senate before the vote was taken on the Treaty. I think it due to frankness on our part.

Very truly, yours, J. M. CLAYTON.

To Hon W. R. KING, U. S. Senate.

Certified as a correct copy by J. WALES, KIRKMAN, F. SHERWARD JOHNSON, and WM. K. MCNEIRS.

Mr. King to Clayton.

JULY 4, 1850.

MY DEAR SIR: The Senate perfectly understood that the treaty did not include British Honduras. Frankness becomes our Government; but you should be careful not to use any expression which would seem to recognize the right of England to any portion of Honduras. Faithfully, your ob't serv't,

WM. R. KING.

To Hon J. M. CLAYTON, Secretary of State.

Certified correct copy by same persons as before.

An Havana paper contains the following:

"Advices from St Jago had been received to the 5th Dec. on the 2d and 4th light shocks of earthquake were again felt there. The inhabitants were leaving the city in great numbers—fleeing from the menaced destruction by the convulsions of the earth and the raging epidemic.

A long list is published, comprising the names of the most respectable inhabitants, as having left for other parts of the island, and we find in the notices of deaths, several names of ladies and gentlemen of high standing.

Accounts from Sagua de Tamano and from Barapoa, say that the earthquake was also felt there, but a few minutes later, and with much less severity than at St. Jago.

☞ A man in the eastern country who lived in a log house had a tame beaver. At the bottom of the door was a small hole for the cat to go out and in. One night when it rained the beaver being in the house and the water running in, he gnawed a chair to pieces and fitted a piece of it into the hole, and with some ashes from the fire place stopped it entirely.

☞ Moses Woolson Esq., the Principal of the Portland High school for Girls, by the advice of his physician, will spend a few months in Cuba, for the benefit of his health. The school in mean time will be taught by his female assistant.

Abraham P. Gibso, for many years United States Consul at St. Petersburgh died in London on the 30th of November.

The U. S. Consul at Elsineur reports the deaths of Capt. S. B. Reed and Charles Claxton.

☞ The Hon. Samuel Appleton has presented $500 to the "Sons of New Hampshire" in Boston, towards defraying the expenses incurred by them during the Webster obsequies in Boston.

PHILOPENA signifies in its common use,—"friendship's forfeit." It is in Greek and Latin words in compound literally interpreted signifies "I love the penalty."

Man's love is like the moon; if it does not grow larger it is certain to grow smaller.

The Potatoe Blight, No. 6.

The rot and the remedy.

To his Excellency the Governor and the Honorable Council of the Commonwealth of Massachusetts:

Gentlemen—On the 9th of September, 1845, I published in the Bangor Whig and Courier, what I then believed, and now know to be, the only remedy for preserving potatoes struck with blight. This remedy was based upon an accurate knowledge of the *cause* of the blight of the potatoe vine, and other plants. A part of this communication was copied into the Boston Cultivator, and subsequently into the report of the Patent Office for 1845, pages 524 and 25, and reads as follows:

"DRYING POTATOES."

"I assume it to be a fact, that the potatoe is not diseased. The tops of the potatoes have been killed, extensively, the two past seasons, and, as a very natural consequence, the unripe, half-grown tubers have rotted. The cause of the rot is fermentation.* Prevent fermentation and the frightful "potatoe plague" is cured.—This must be done by drying. Any farmer who has a rotting field of potatoes may save them by digging and *spreading them so thin as to dry the surface, and keep them dry until cold weather* and he can then safely store them away in the cellar. Drying any substance, as every one should know, will prevent fermentation. Fermentation in vegetable matter produces decomposition, and decomposition is rot."

If this is the real and only remedy, perhaps you will ask, why was it not adopted and proved to be so? It was because the agricultural, and other papers, and their correspondents, in general, went most emphatically against it. Drying potatoes was strongly condemned.

About the first of October of the same year the English Government appointed a board of Commissioners consisting of Professors Kane, Playfair and Lindley to proceed to Ireland and investigate the cause and remedy for the potatoe rot. Under date of October 24th, these commissioners made their first report, from which I take the following extract:

"We recommend that potatoes, when dug, should be spread over the field and not collected into heaps; and if the weather continues dry and free from frost, that they should be allowed to lie upon the field."

From their third report I extract as follows:

"Advice concerning the potatoe crops to the farmers and the peasantry of Ireland.

"The dreadful disease that has attacked your potatoes is one of the effects of which you can only stop by strict attention to the advice of those interested in your welfare. Many plans have been proposed, and after examining them all, we recommend the following directions:

"All competent persons are of opinion that the first thing to bear in mind is the following directions:

1. Dig your potatoes in dry weather if you can; and if you cannot, get them dug somehow as fast as you can.
2. Keep them dry and cool.
3. Keep the bad potatoes separate from the good.
4. Do not pit your potatoes, as you have been accustomed to do in former years.
5. Recollect that if they get damp, nothing can make them keep; and do not consider them dry unless the mould which sticks to them is like dust.

Do not take them into your houses unless you want them for immediate use.

"*Digging and Drying.*—As you dig the potatoes, leave them in the sun all day; and if you can, throw them upon straw, turning over two or three times. At night you may gather them together and cover them with straw, to keep off frost, next day take off the straw, spread them out, and give them the sun again. Do this for three days running if the weather permit. If you put straw enough upon them at night they will not suffer.

"If the weather be unfavorable, and you have a dry loft or out-house large enough to hold them, you may spread them thinly on the floor, allowing a free circulation of air so as to dry them there.

"They must be got dry." Dated Nov. 3, 1845.

So important were these directions considered, by the government, that they were distributed by constables to every farmer, and cultivator of a potatoe patch throughout Ireland, if not England and Scotland. The *efficacy* of the drying remedy consists more in the *time of digging* and *drying*, than in the quantity or quality of the drying process. To know when to dig and dry potatoes the cultivator must have some knowledge of the *cause* of the blight of the vines. In all that has hitherto been published, which has fallen under my observation, *not the slightest allusion has been made to the true cause of the blight, and mildew of plants.*

Respectfully your ob't serv't,

PHILIP MORRILL.

* "Fermentation. A peculiar spontaneous motion, which takes place in vegetable, or other organized substances, and which totally changes their properties."—*Accums Chemistry.*

HORACE GREELY A FARMER. About thirty miles from New York city, on the line of the Harlem Railroad, Horace Greely, of The Tribune, has a farm of thirty acres of bog swamp and mountain rocks, on which his future home is now building. It is near Chapaque, in Westchester county. Here the city editor will play the country farmer, and having money to spend, will doubtless employ himself in making the "the wilderness blossom as the rose," and reap profit in health and happiness, if in no other shape.—The Plow.

NEW YORK, Jan. 11.

The Ericsson has made her second trial trip. She made nine miles an hour with the tide against her. Her engines are but little more than half finished, and she carries little more than six pounds pressure, while she is calculated for twelve.

CONGRESS.

WASHINGTON, Jan. 10.

IN THE SENATE.

Messrs. Pearce and Edwards made a personal explanation in reply to Messrs. Cass and Downs concerning the Clayton and Bulwer treaty.

Mr. Seward in his remarks, replied specially to the speeches of Messrs. Cass, Downs, Chase, and Weller, on the Bulwer and Clayton treaty, and defended both Mr. Clayton and the treaty from the censure of those gentlemen. He characterized their remarks as groundless and unintentionally unjust, and proceeded to show that the transaction which they had so pointedly condemned was not unprecedented in the history of diplomacy. He alluded to the treaty of Guadaloupe Hidalgo, in which the 9th article, as signed by the negotiators, was struck out by the Senate, and another substituted, in consequence of which the Mexican Congress refused to ratify it, and yet the Secretary of State, Mr. Buchanan, under the direction of President Polk, and without the consent of knowledge of the Senate, signed and delivered a protocol, declaring that the suppression and substitution were not understood by the United States to diminish what had been stipulated—whereupon the treaty was ratified and ratifications were exchanged; he denied that the object of the Convention was to get the British out of Central America, as understood by Mr. Cass and others.—Its purpose was to fix the views and intentions of the two countries with reference to the means of constructing a ship canal between the Atlantic and Pacific oceans. Mr. Seward thought the memories of the honorable Senators were at fault, and that they did not, when approving the Convention, understand it to include all Central America, as they have now described that region. He then entered into a geographical and political description of the country known as Central America, stating that the name in a geographical sense was applied very loosely, while in its political meaning it included only Costa Rica, Nicaragua, Salvador, Guatamala, and Honduras, which were once known, as the Republic of Central America; and contending that the Convention used the term Central America in its political sense only. Geographical Central America embraces the regions which contain the three celebrated passages from ocean to ocean, namely, Panama, Nicaragua and Tehuantepec; and if that be the view in which the name Central America is used in the convention, then the stipulations are already made between the two nations for the construction and maintenance of railway passages across all those routes. But the convention, on the contrary, confines its case to the Nicaragua route, and postpones to a future day the making of a stipulation in regard to the two other routes.

Mr Seward then proceeded to show further that when the honorable Senators approved the convention they would not have it understood to include British Honduras, or Belize, as it is also called; contending that Honduras, like Central America, has a geographical as well as a political sense; the former including both Spanish and British Honduras, just as the name of Virginia long stood for the whole Atlantic border, from Carolina to Canada. Political Honduras is the ancient Spanish province, and on every map, and in every atlas, is divided and separated from British Honduras just as plainly and as broadly as Kentucky is divided from Virginia; while British Honduras is marked and designated with the Islands attached as a British Colony by the name of British Honduras, and sometimes by the name of Belize. This region, Great Britain claims to own by absolute right. She has so claimed it since the year 1667, and has held its undisturbed possession since the year 1783. The Belize has been governed by British authorities for nearly 200 years; it is occupied by a British garrison; is ecclesiastically connected with the Diocese of Jamaica. No one could suppose that Great Britain intended to include that colony under the vague and equivocal name of Central America, or that the United States anticipated such a proceeding, in terms so vague and uncertain. The terms "any part of Central America" then did not include Honduras, and Senators could not so have understood it, if they knew the political condition of British Honduras.

Mr. Seward then proceeded to give a history of the formation and ratification of the Clayton treaty, defending the course of the administration, denying emphatically that there had been a lack of due information on the part of honorable Senators, and exculpating Mr. Clayton from the charges of suppression and fraud.

IN THE HOUSE.

Mr. McLanahan, from the Judiciary Committee, moved the suspension of the rules, to enable him to report a bill authorizing the United States Courts to issue attachments for contempt, in certain cases. Negatived.

The House then passed the Senate bill changing the name of the ship Prentice to Leoni, and next took up the bill for the relief of Col. Fremont.

The House passed the Senate resolution filling the vacancies in the Board of Regents of the Smithsonian Institution with the names of Alexander Dallas, Bache, and J. M. Berrien.

The House then went into Committee on the Deficiency Bill.

Mr. Bell of Ohio, protested against the doctrine of annexation, avowed by certain members. He did not believe it was our "manifest destiny" to annex Cuba, or any other territory. The annexation of that island, if it should ever be composed, would be followed by the annexation of the Canadas, and the agitation of the compromise again, because that measure did not apply to territory not at the time in the territorial possessions of the United States.

Mr. Stephens of Georgia, replied, saying that the Compromise settled the principle that States may come into the Union with or without slavery, as the people of the territories may decide to be.

Mr. Skelton of New Jersey, spoke against the Senate resolution conferring the rank of Lieut. General on General Scott, and against the Army and Navy pension bill; also against the proposed increase of the salaries of foreign ministers.

Mr. Weightman of New Mexico, defended that territory against a suggestion in the report of the Secretary of War, that it would be better to buy out the people and induce them to remove to a more favorable region, than to spend so much money for their defence.

The Committee then rose, and the House adjourned.

Mutual Assistance.

A man very lame
Was a little to blame
To stray far from his humble abode;
Hot, thirsty, bemired,
And heartily tired,
He laid himself down in the road.

While thus he reclined,
A man who was blind
Came by and entreated his aid;
"Deprived of my sight,
Uncertained to-night
I shall not reach home, I'm afraid."

"Intelligence give
Of the place where you live,"
Said the cripple—"perhaps I may show it.
In my road it may be,
And if you'll carry *me*,
It will give me much pleasure to show it.

Great strength you have got,
Which, alas! I have not,
In my legs so fatigued every nerve is;
For the use of your back,
For the eyes which you lack,
My pair shall be much to your service."

Said the other poor man,
What an excellent plan!
Pray, get on my shoulders, good brother;
I see all mankind,
If they are but inclined,
May constantly help one another.

Bangor Mechanic Association.

Annual Meeting for choice of Officers.

The members of the B. M. A. are notified that their Annual Meeting, for the choice of officers, will be holden at their Hall on THURSDAY evening, Jan. 13th, at 6½ o'clk. A full and punctual attendance is very desirable.

Per order.

jan13 L. W. ROGERS, Sec'y.

BE NOT DECEIVED.

Unprincipled men and ignorant quacks have taken advantage of the great popularity and wonderful cures performed by CURTIS & PERKINS' CRAMP AND PAIN KILLER, and are endeavoring to palm off BASE IMITATIONS and counterfeits of this article. REMEMBER the ONLY GENUINE the original Cramp and Pain Killer in the world is CURTIS & PERKINS', as will fully appear by their right secured for the United States; and no OTHER person in the world is in possession of the secret of compounding the genuine article. Avoid all spurious and miserable imitations, or you may take poison instead of Pain Killer. Purchase of our authorized agents. Be sure you get the genuine Curtis & Perkins' Cramp and Pain Killer, and you will be positively sure of relief from pain, and a speedy cure.

CURTIS & PERKINS.

Bangor, Sept. 22, 1852 3tawd&w

IT IS AN ERRONEOUS IDEA that disease cannot be cured except by taking large quantities of medicines into the stomach, in a great many cases of which much injury is done, although *the disease in point be actually cured.* The coats of the stomach, by continued use of nauseating mixtures, frequently become so much disordered that the *digestive function is seriously injured*—the result of which is dyspepsia, nervousness, cholics, alternate diarrhœa and costiveness, flatulency, nightmare, etc., etc. Would it not, therefore, be very desirable to possess a remedy, which being applied *externally* would excite the absorbents to increased action and thus carry off through this medium the deleterious principle which is the *direct cause* of the disease? Surely every thinking man will admit that this would not only be the most *pleasant*, but by far the safest means to effect the desired end. The almost superhuman cures performed by the Arabian physicians in the days of old were mainly effected by this course of treatment, and the ingredients of which H. G. FARRELL'S CELEBRATED ARABIAN LINIMENT is composed, are extracted from rare plants peculiar to Arabia. This great Liniment (which is now to be had of most respectable druggists and merchants in every town in the United States,) is daily effecting cures which seemed beyond the power of medicine to control—consumption, bronchitis, and liver complaints in their first stages, nervous affections, indigestion, enlargement of the spleen, scrofulous tumors, goitre, etc., etc., are frequently cured, and *always* relieved by its use. It is unsurpassed as an anodyne,—relieving severe pains in a few minutes after its application, soothes the irritated nerves, and produces that delightful tranquility so grateful to the nervous invalid. Sprains, bruises, wounds, burns, sore throat, chilblains, rheumatism, ague pains, etc., etc., are speedily cured by it, and for nearly all ailments in horses or cattle, requiring an external application, it is an effectual remedy.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by B. F. Kinsell, Oldtown, P. French & Batchelder, Dexter. Geo. Parcher, Ellsworth. P. C. Fisher, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell, as above, accompanied with good reference as to character, responsibility, &c.

Those desirous of obtaining Phrenological Examinations and Charts of Character, are invited to call THIS week. Rooms, No. 2 Harlow's Block. Phrenological Works for sale.

Jan. 12 tf

NEW YORK CRYSTAL PALACE.

☞ Notice given by the Association for the EXHIBITION OF THE INDUSTRY OF ALL NATIONS, to all parties in America desirous of contributing to the Industrial Exhibition to be opened in the City of New York, in May, 1853.

All persons desirous of obtaining a place in the Building erected on Reservoir Square, in the City of New York, by the Association for the exhibition of the Industry of All Nations, are requested to send in their Applications for Space before the first day of February, 1853, immediately after which date the Association will proceed to decide on Applications and allot Space.

Each Application must furnish the Exhibitor's name and address in full, and state whether he is Manufacturer, Proprietor, or Agent. It must contain a concise description of the articles offered for Exhibition, and a statement of the Precise Dimensions of the Space required—if on Wall, by Height and Length, if on Floor or Counter, by Length and Breadth.

Applications must be signed by the persons proposing to exhibit, and be addressed to the subscriber, at the office of the Association, No. 53 Broadway, New York.

The Association hopes that attention will be given to the exact terms of this notice, and that its requirements will be carefully observed in making applications. By order

W. WHETTEN, Secretary.

No charge will be made to exhibitors for space allotted.

—ON—

Friday Evening, January 14,

—They will be assisted by—

A. W. FISHER,
A. P. PHILBROOK,
F. E. BARROWS

☞ The Programme will consist of Solos for Violin, Clarionet, Piccolo, Barritone, &c., &c., selections from the best and most modern Music of the day, Cavatinas, Overtures, Quartetts, Duetts, &c.

**For particulars see bills of the day.

Doors open at 7 o'clock—Concert to commence at 7½ o'clock. Tickets of Admission 25 cents—Children 12½—to be had at the principal Music and Bookstores, and at the door on the evening of the Concert. jan12

The Mustang Liniment

POSSESSES the properties of penetrating and permeating all organic or porous substances and also of dissolving them when their vitality is destroyed; opens the capillary tubes, softens hardened tendons and ligaments, stimulates the absorbents and secretories, allays irritation and inflammation, reduces swellings, discusses tumors, and heals ulcers cancers, or secret sores and wounds. In chronic rheumatism it is almost a specific. The sales of over four millions of bottles, and the testimony of tens of thousands of persons who have been cured by it, are sufficient evidences of the truth of the great value of this preparation. Every person, therefore, should give it a fair trial before pronouncing judgment upon it. This is all that is asked. Try it! Try it!

Australian Packet Line.

First EXCURSION to Australia

The A 1 Clipper Yacht DAYTONA 1000 tons will succeed the Aurora as second Ship of this line and sail from New York on the 15th of January

THIS beautiful specimen of Marine architecture was built by the well renowned McKay Boston for a racer and like her namesake the famous racer [illegible] has never been beaten Mr McKay was the builder of the Flying Fish Flying Cloud Staghound [illegible] and the Clippers in Mr John Ogden's line to California and he [illegible] pre eminent among the proudest monuments of his skill She will be fitted up in a style as elegant as unique and fresh provisions will be furnished for at least one half of the voyage It is confidently expected that she will land her passengers at Melbourne in 70 days from New York [illegible] passages
No such opportunity as this has yet been offered to gentlemen desirous of [illegible] that enchanting region and as none but passengers are taken it will be taken though it should make a little venture to cover expenses, may [illegible]
It is not fair to compare [illegible] with the ordinary class of vessels hitherto fitted out and now advertised for Australia as the Daytona is above competition from any quarter
She will take an experienced Surgeon and all the attention of a first class ship will be provided the most liberal manner
A drawing of the ship and plan of her berths will be exhibited and rates of passage and other particulars made known by applying at the Australian Packet Line

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world. It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast. To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhœa, and Dysentery. In all of which cases it should be used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds are magical. Persons troubled with Cramp in the Stomach, Side, or Bowels, Sore Throat, Piles, &c., by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure. The proprietor can produce volumes of testimonials in its favor, but prefers to let it carry its own recommendations, as it has done for forty years past. We ask no man to use it after an unsatisfactory trial. In its composition it unites several of the most penetrating and healing specifics known in the materia medica.—The inventor of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of [illegible] with a distressing cough and bleeding at the lungs, and receiving no benefit from medical aid in 1848 was to all appearance in the last stage of consumption [illegible] so that I was unable to stand or help myself. At that time your Liniment was providentially [illegible] to me, and by the use of three or four bottles I was entirely cured, and have since been able to labor every day. I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never [illegible] any permanent relief until I took your Liniment, since which I have had no return of this complaint. I can truly say I think your Anodyne Liniment was the means of saving my life.

JOHN I. ATKINS.

Brewer Sept 22, 1852

Dr. Johnson: Dear Sir—In consequence of having a fever sore in my leg it became entirely stiff at the knee, and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was [illegible] and strengthened, and for a number of years I have [illegible] as well as the other. I consider myself indebted to the use of your Liniment, through the blessing of Providence, for the use of my leg, and I would say to all who are [illegible] to give it a trial, and no doubt you will be cured.

RUFUS CHAPMAN

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 1837.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, where by a Patent may be procured about six weeks earlier the continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of securely examining their inventions, and in consulting in respect to them, matters, in general of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston did business at the Patent Office as Solicitor for Procuring Patents. There were few if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents

Sept 8 1852

N. England Truss Manufactory

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

467 Washington Street, 467,

BOSTON.

ALL the various approved Trusses constantly for sale. Ladies waited on by Mrs Caroline D. Foster, who has had twenty years experience in the business.

Strangers in the city will please take notice the old numbers and the even numbers are on opposite sides of the street, it being 410 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen, Ladies, Youths and Infants. Abdominal Supporters of five or six different kinds and such as [illegible] Chapin's Spinal, Cutter's, Fitch's, Ingall's &c. &c.

Ladies waited upon by Mrs Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 16 years since, but will last forever:

Boston, January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of skillful workmen, in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J. F. Foster, to supply the deficiency occasioned by the death of Mr Heath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M.D. Boston

CERTIFICATE. The following certificate is from Professor Stuart of Andover Theological Seminary.

The undersigned having occasion to employ Mr J. Frederick Foster of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpasses (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon Dr J. C. Warren, as a sufficient guaranty for all who may favor Mr F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

M. STUART.

ZINC AND Fire Proof Paints,

Warranted Pure.

THE New Jersey Zinc Company furnish their Zinc Paints at the following prices:

No 1 White, ground in oil 9 cents per lb
No 2 White, " in oil 8 " " lb
No 3 White " in oil 7 " " lb
Dry White of Zinc 6 cents per lb

Brown and Black ground in oil, 4 cents per lb.

Their WHITE ZINC PAINT, equal weight, covers according to surface from 10 to 1000 per cent more surface than any other paint, retains its whiteness, brilliancy and protective qualities for years, is free from the poisons so dangerous in other pigments to painters and tenants of newly painted rooms and resists the sulphurous emanations and foul air of ships and as outside or inside paint does not tarnish or become yellow. Ground in varnish it forms a beautiful porcelain finish. The French Government has adopted Zinc Paint for all uses.

The BROWN AND BLACK ZINC PAINTS form directly a solid metallic coating on wood, brick, iron &c., admirable for fire proof qualities. They are unrivalled for railcars, [illegible] &c. For marine uses they resist [illegible] salt water and weather [illegible]

DR. MORSE'S

INVIGORATING CORDIAL!

FOR GENERAL DEBILITY, IMPOTENCY, IN CONTINANCE OR NOCTURNAL EMISSIONS, &c. The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude and General Prostration, or any of the consequences of youthful indiscretion, or injudicious [illegible] in riper years, renders it the most valuable preparation ever discovered. In fact as a [illegible] for the above complaints it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. This WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed by the high [illegible] of the faculty of London, Paris, and the [illegible] of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the only physic so long sought for, and never before found: the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or [illegible] loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have [illegible] by Sensual Excess or evil practices. It [illegible] said by some that these disorders, emissions &c. were incurable. This however is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has been constantly curing these complaints, [illegible] mental and bodily incapacity of the [illegible] [illegible] as the following testimony of the [illegible] [illegible] will conclusively show.

Dr. Woodward of the Massachusetts Insane Hospital, [illegible] of one of his patients being cured by using the Cordial, thus:— "It gives me pleasure to inform you that [illegible] of my patients, while in [illegible] procured some [illegible] Cordial. He tells me that he has [illegible] emission since he commenced taking it, which before he had two or three a week. When he applied to me, says Dr W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial which has effected a cure. I am sure no other medicine would. I shall ever recommend whenever the opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question and the proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and apparently miraculous virtues. [illegible] directions are to be found the happy [illegible] of healthy [illegible] who would not have been saved for this [illegible] preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

Have not in a single instance [illegible] given the [illegible] to any other preparation for the above complaints. It has, in many violent and [illegible] cases effected radical cures after patients had been abandoned in their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas) without deriving any benefit. I had almost given up all hope of obtaining relief when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied the half a dozen bottles I took will cure me."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that, but I found no relief until I procured some of your Cordial. I must say it completely cured me."

A other says—"I was surprised at the effect of the Cordial and [illegible] had I [illegible] of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION—Ask for Dr Morse's Cordial and take no other. Nostrums are worthless imitations which its unrivalled excellence, fame and popularity, have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this!

NOTICE—Persons conscious of physical inability from causes above [illegible] confidentially consult Dr Morse personally or by letter, (post paid) at his office 78 [illegible] bury street, Boston. The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address.

Dr. M. [illegible] pledges to warrant a perfect cure in every case or take no pay.

Prepared by M. Morse M. D., New York city.

It is put up in pint bottles, with the words Dr Morse's Invigorating Cordial blown on the glass. Price $3 per bottle, 2 bottles $5, 6 bottles $12, and $24 per dozen.

N. B. Important advice accompanying each bottle.

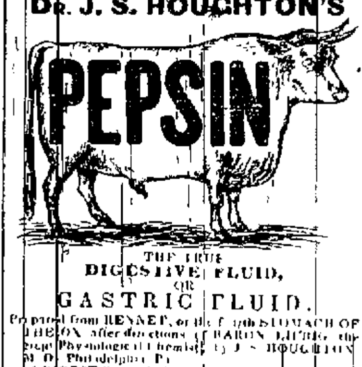
ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

Dr. J. S. HOUGHTON'S



THE TRUE DIGESTIVE FLUID, OR GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

"I DIGEST"—Such is the true meaning of the word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the Stomach.

SCIENTIFIC EVIDENCE.

The Scientific Evidence upon which this remedy is based is in the highest degree Curious and Remarkable.

Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry; Dr. Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper of New York University; Prof. Dunglison's Physiology; Prof. Silliman of Yale College; Dr. Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER.

Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for one Dollar sent to Dr. Houghton, Philadelphia.

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy right and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines.—Price ONE DOLLAR per bottle.

Agents—INGRAHAM & FULLER, Bangor, wholesale and retail Agents, Dillingham & Titcomb, Augusta, W. O. Poor, Belfast.

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

THE VEGETABLE PULMONARY BALSAM FOR COUGHS COLDS CONSUMPTION

The VEGETABLE PULMONARY BALSAM is justly celebrated as a popular remedy, having, during a period of more than Twenty five years held its standing which it has acquired for CONSUMPTIVE COMPLAINTS, and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other article known. Physicians who have had an opportunity of witnessing its efficacy [illegible] recommend it as a safe and very efficient medicine, equal if not superior to any other prescription for the above complaints within their knowledge. The basis of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States, and was preserved by an individual to whom it gave the most astonishing relief. It is composed of vegetables, and if used according to directions, must be perfectly safe.

From Messrs. Allen & Co., Merchants, Cincinnati.—"Those persons who have used the Vegetable Pulmonary Balsam uniformly speak of it favorably, and from the quantity sold, now in the hands of the [illegible] our other preparations used for similar complaints, we consider it first on the list."

Respectfully &c., ALLEN & CO.

The Editor of the Seneca Falls Courier says—"We have had occasion to witness the good effect of the Vegetable Pulmonary Balsam in our family in case of a young lady who has been entirely cured of Consumption by the use of it, and his [illegible] severe coughs and colds, and cheerfully bear testimony to its being a safe and convenient and very efficacious medicine in cases of that description."—Id. Courier.

A Gentleman from Philadelphia writes that he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family for the last thirteen years, and also of recommending it to his friends, and considers it an invaluable remedy for all pulmonary complaints.

For the last fifteen years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases, [illegible] and diseases of the lungs. I would therefore confidently recommend its use in all complaints of the chest as being equal if not superior to any other medicine within my knowledge.

Lempster, N. H. TRUMAN ABELL, M. D.

GRANT'S INDIAN

PULMONARY BALSAM

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Cures of Consumptive Complaints, have proved the undoubted satisfaction of all persons who have become acquainted with this wonderful remedy, that it is greatly superior, because it is soothing and healing, and more certain to cure Consumption of the Lungs, than any other Remedy in the world. We know it [illegible] that it is said by some that Consumption can not be cured. Be it the opinion of the many or the few, we shall not attempt to argue with such, but this we will say and do assert as a fact, which can be proved in thousands of cases, that this medicine has cured Coughs and cases which before the cures were effected, were called real Consumption, and which were attended with symptoms that recovered, and were in all respects like the symptoms of those who die, and whose dead are said to have died with that fatal disease Consumption. This Balsam has cured thousands of persons who were said to be hopelessly afflicted—who had hard, dry, racking Coughs—Pains in the Breast, Side and Back—Difficulty of Breathing—Purulent Expectoration—Hectic Fever—Night Sweats—and wasting away of the Flesh and Blood. Persons having such complaints have been cured after it was said they could not live a week longer. This Medicine has cured some who were supposed to be in a dying state, but, by the use of this remedy, they now live, and enjoy good health.

This Balsam is purely a vegetable compound. It is pleasant to take, will never do injury in any stage of disease or in any circumstances. It effects its wonderful and almost miraculous Cures by Purifying, Strengthening, and Invigorating the whole system—by regulating the circulation and by inducing a healthy action—in allaying Cough—soothing the Nerves—and aiding a facilitating Expectoration. It Cures the following diseases, viz.,—

Consumption,

COUGHS and Colds, Bronchitis, Asthma, Spitting of Blood, Pains in the Lungs, Pains in the Breast, Side, and Chest, Night Sweats, Palpitation of the Heart, and all FEMALE WEAKNESSES and Complaints arising there from, Cholera Infantum, &c.

For Proof and particulars of Cures, see our Pamphlets and Handbills—all our Agents have them to give away.

For sale by WM. MANN, Bangor; Whitney & Tolman, Newburg; P. McCrillis, Dexter; C. Reynolds, Garland; A. Herrick, Carmel; Snow & Butler, Hampden; R. F. Kensell, Oldtown; Berry & York, Dixmont; L. P. Pike, Lincoln; H. Bunker, Orono; H. K. Dexter, Corinth; J. Kirby, Newport.

All orders must be addressed to WALLACE & CO. 304 Broadway, New York.

march18

HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS SUFFERING

Extract of a Letter from Mr. William Galpin, of 70, St Mary's Street, Weymouth, dated May 15th 1851

To Professor Holloway,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG OF THIRTY YEARS STANDING

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31 1851

To Professor Holloway

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13, Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH

Extract of a letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 13th, 1850

To Professor Holloway

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bunions	Elephantiasis	Skin-diseases
Bite of Moschetoes and Sand Flies	Fistulas	Scurvy
Coco-Bay	Gout	Sore heads
Chiego-foot	Glandular Swelling	Tumours
Chilblains	Lumbago	Ulcers
Chapped hands	Piles	Wounds
	Rheumatism	Yaws

Sold by the Proprietor, 244 Strand (near Temple Bar,) London, and by all respectable Venders of Patent Medicines, throughout the British Empire, and by those of the United States in Pots and Boxes at 37½ cts—87 cts and $1 each.

GEO. W. EMERSON,

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated [illegible] 1851

To Professor Holloway,

SIR—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any inquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

HENRY COE, North street, Lynn, Norfolk.

These celebrated Pills are wonderfully efficacious in the following complaints:

Ague	Fevers of all kinds	[illegible]
Asthma		
Bilious Complaints
